Instant Attraction, Trust Gained, and Realizing Worthiness of Finding Love

By Evanlea's Bookshelf

This is one of Donna Grant's older series that she recently updated and re-released. I enjoyed the first book, but this one is my favorite so far. I love the characters in this one!

The Shield's are warriors brought together by the Fae from across time and the realms to protect Earth from an ever increasing evil that has destroyed other realms already. One destroyed realm sent forth a group of

infants with knowledge to help other realms survive the evil and now the remaining five Shields are searching across time not only for the remaining five females, but they are also searching for the stones that are allowing the Evil to enter the Earth realm and fighting this increasing Evil that has become stronger as they have become fewer.

Roderick left his realm when a horrible event made him feel as if he needed to make amends. He chose to join the Shields hoping that if he could bring back the answer to save his realm from the Evil that he could be forgiven.

Elle is a lonely young woman who never felt like she fit in, until she met Roderick.

Instant attraction, a building of trust, and a journey to determine that they are worthy of finding love.

This story includes a strong heroine, a confused and torn hero, and friends that will stand by their side through anything. Oh, and some sexy encounters as well.

If you like historical themed, time travel, paranormal romances definitely give this series a try. After two books, I am ready for the third and definitely recommend them.
