A great book on my darker side.

By K. Schubach

I liked this book because it focused solely on Gemini. Most books are compiled of the entire zodiac, which then each sign gets only a handful of pages. I enjoyed this book because I've always wanted to understand more about my sign, especially the darker side. There were many times I found myself saying "I actually do this!"

The author writes in a sarcastic tone that may or may not grate your nerves, but I'm assuming it's for Dark Gemini.

I would recommend this book to anyone who has a curiosity to know more than just the lighter side of their sign.

I have this book four stars instead of five because the website links in the reference section were outdated.
