*Diction for Singers*

By Eileen Davis

With all due respect, well, yes, this book is of GENERAL use-there is a certain convenience in having all these languages in one book. And it maybe a way to begin this type of study. But, alas, there are so many aspects about diction not even addressed. Mistakes abound, and whereas those can be corrected, what about the information that is simply not included? The singer using this book will indeed gain a smattering of diction in all languages, but for adequate preparation for a classical singing career, singers should further their education with more specific textbooks on the languages in question. For instance Evelina Colorni's Italian book, Nico Castel's Spanish offerings, Glenn Paton's *Gateway to German Diction*, Thomas Grubb's *Singing in French* or Eileen Davis' new book *Sing French*. Shortcuts are exactly that, SHORTCUTS! If you are a serious singer, shortcuts just don't work. Get with it-study the details in order to be really competitive in your art. Would you shortcut your vocal technique? Of course not! Nor should you shortcut any part of your training. If you are a diction teacher of students targeting a performance career, please consider the future of your students and the foundation you are providing them.

Excellent necessity

By Spencer Lent

This book is a must-have if you are to sing successfully. It is pretty easy to understand, and it introduces IPA without confusing everyone. There are a few mistakes in it but almost every book has mistakes in it. Excellent and easy to understand. Get it if you are a singer!
