DIFFERENTIAL DIAGNOSIS IN INTERNAL MEDICINE: FROM SYMPTOM TO DIAGNOSIS BY WALTER SIEGENTHALER PDF

An invaluable guide to diagnosing the full range of problems in internal medicine

From Symptom to Diagnosis

Siegenthaler's "Differential Diagnosis in Internal Medicine" provides a practice-oriented approach to mastering the diagnostic challenges encountered in internal medicine. Organized according to symptoms, the book enables the reader to learn by tracing the path from presenting signs to diagnosis. Different chapters address common classes of symptoms including fever, pain, hematologic symptoms, pulmonary and cardiac symptoms, gastrointestinal symptoms, nephrologic symptoms, and neurologic symptoms. Each chapter presents a comprehensive overview of the methodology and diagnostic tools and tests along with the essential pathophysiologic background information that will guide the reader toward a definitive diagnosis.

Features:

- Organized by functional system and symptom constellations
- Coverage of all subspecialties in internal medicine, with special consideration of related subjects, such as dermatology, neurology, and rheumatology
- Discussion of typical findings and signs for differentiation of all common, rare, and "exotic" diseases with pathophysiologic background information
- More than 780 stunning figures demonstrating key concepts
- Instructive tables and differential diagnostic algorithms summarizing symptoms and diagnostic pathways
- Guidance for the differential diagnostic evaluation of common laboratory test results, including step-by-step plans for further diagnosis

With its unique symptom-to-diagnosis approach, "Differential Diagnosis in Internal Medicine" is ideal for medical students, residents, and practitioners requiring an authoritative reference in the clinical setting.

Walter Siegenthaler, MD, is Professor Emeritus of Internal Medicine at the University of Zürich, Switzerland.

- Used Book in Good Condition

Most helpful customer reviews

1 of 1 people found the following review helpful.

Disorganized and outdated are the two words that best describe this book.

By MH

The Kindle version is all over the place, so it's hard to know where you are in the book, making it really difficult to navigate. A lot of the content is good, but a lot of it is outdated. There needs to be a new version of this book, with better organization, and easier navigation.
