Fantastic resource book for holistic practitioners/hypnotherapists

By Irina Filatova

Great book for past life regression, hypnotherapy or spiritual healing practitioners and students, packed with advice and techniques on conducting healing journeys through many dimensions and realities in order to heal client's emotional and physical issues. This is a multidisciplinary book, combining quantum healing, past life regression, afterlife exploration, shamanism, hypnotherapy etc. It might be too complicated for general audience, but a great resource for working practitioners in hypnotherapy, guided meditation, past life regression, modern day shamanism and other holistic body/mind healing modalities.

Five stars for a book whose time has come.

By Angela

This is an excellent handbook for spiritually directed hypnosis practitioners and for those interested in inner journey work. It is highly informative and contains a gold mine of valuable hints and tips that can be added to one's toolbox. The book covers both basic and advanced teachings and techniques that are well aligned with our modern view of quantum physics and its inherent role in consciousness. Lorna Wilson offers a client-centered approach that allows people to explore and engage various aspects of Self, and to bring that wisdom forward so that it can be integrated into conscious awareness.
