Gets everything right

By John Malone

These writers really know Texas - I live in Houston, but I travel all over the state (I use these books to get day trip ideas) and they really nail pretty much every aspect of the Lone Star State: the best places for barbecue, the essential sights, the culture... like most Lonely Planet guides, the coverage of off-the-beaten-path destinations and outdoor activities is top-notch, which I love (although Frommer's has a more nuanced rating system and Fodor's has the prettiest layouts... but that's a discussion for another day).

In short, this is overall the best Texas guide I've read. My only hang-up is the writing in certain chapters (the Gulf Coast, in particular) is pretty dry, although the rest of the chapters are quite engaging. The quality of information throughout, however, is impeccable.

(P.S. - To the reviewer mentioning the "gross" food recommendations in Lockhart - I strongly disagree with you, as does apparently Texas Monthly and the long lines of people waiting out the door.)

I wished there were more substantial separate guides for each of the major Texas cities

By Howard Schulman

Honestly, each of the sections in this book should probably have it's own book, Dallas, San Antonio, Houston, Austin, etc. I just spent 9 days in Houston and got this book, in addition to several other relevant tour guides. In the end, I stopped using the other guides and consulted just with LP. In general, LP writers have a better feel for what is important, what is fun, and what is interesting. Houston is the fourth most populated city in the USA and growing. There's lots to do and while the 40 or so pages devoted to Houston were good, the best among the sources I had, I wished there was more. A problem in writing a Hoston tour guide is that it is growing and changing so quickly. Galveston is also interesting and the section on Galveston (just an hour away from Houston), should have been much, much bigger, too.

addendum (3/12/16): Just came back from 9 days in San Antonio and the Hill Country. I found these sections of this book just as good, and after buying and trying to use the other guides, I found this one the best

Four Stars

By Peter Robinson

Good coverage for major cities but less in rural areas.
