# MELTDOWN: TERROR AT THE TOP OF THE WORLD BY SABRINA SHANKMAN PDF

"Meltdown: Terror at the Top of the World" tells the riveting story of seven American hikers who went on a wilderness adventure into Canada's Arctic tundra—polar bear country—and came back with a tale of terror. Based on interviews with all seven hikers as well as many of the world's experts on polar bears and sea ice, "Meltdown" tells the story of the hikers' harrowing encounter with a polar bear; the plight of the polar bear in general, facing starvation and extinction as the sea ice melts and its habitat disappears; and of the Arctic meltdown, an advanced symptom of man-made climate change that is touching everyone, everywhere. Praise for Meltdown: "As deftly paced and riveting as it is a clear call for dramatic action on climate change." - Porter Shreve, San Francisco Chronicle "Part harrowing survival story, part science lesson, "Meltdown: Terror at the Top of the World" is 100% the most gripping e-book single of 2014." - Howard Polskin, Thin Reads

Gripping Story That Makes You Think

By M. Shelto

A gripping, up close and personal insight into what can happen even when the best plans and preparations are made. So concise, you feel like you know each individual and what they are going through. What made the polar bear attack? What changes made this happen? Very interesting read.

12 of 14 people found the following review helpful.

developing smart growth cities and other major changes are most important

By Richard Gross

I was one of the guides on this trip and really appreciate the sensitive and detailed story of the trip and how the book weaves in the much larger issues of climate change. The trip was sponsored by the Sierra Club which has been one of the leading voices in climate change. This is an issue that we cannot turn our backs from. While our story is a dramatic example, reducing carbon emissions through eliminating coal plants, reducing our dependence on automobiles, developing smart growth cities and other major changes are most important. I hope this well written story moves us all a bit.

3 of 3 people found the following review helpful.

Meltdown-an undeniable story that connect us all

By Nanette Dyer Blake

Captured well in the title, this book tells parallel stories that exemplify our interconnection and impact. For

the hikers, their families and loved ones, spread out and tucked in places far and wide, the terror at the top of the world can be replaced with relief and gratitude. The parallel story, told deftly by Ms. Shankman, has continuous, ongoing impact with profound consequences for all of us, and is an undeniable one. I appreciate the hikers, their willingness to share and the author for her work.
