Not what i was looking for

By Maxi Moran

Before you buy, read this.

The story is about kids with mental illness and furies. The description should have mentioned that.

The content of the story was not very realistic. The way the author writes about the disabled characters is unbelievable, it almost makes you want to hate them. I have a mental problem of my own and know what it is like, but I felt a bit offended when I read the story.

Not worth is...

By FellFox

Good concept but...

Bad writing. Things dont fit together well. Sometimes it seemed like one person was talking but they used the wrong name. Things were spelled wrong. Names were too similar, so when you moved between stories you couldnt tell if it was the same people. If this had been more than a dollar I would have demanded my money back.

Makes you think.

By BobBoberson

When all the roles get reversed what happens? Well in this tale you follow a HUMAN child being treated by furies, why? Well the child really only clicks with furies.

A deep tale, and an interesting idea
