About the Author

Thomas Paine (February 9, 1737 [O.S. January 29, 1736] - June 8, 1809) was an English-American political activist, philosopher, political theorist, and revolutionary. One of the Founding Fathers of the United States, he authored the two most influential pamphlets at the start of the American Revolution, and he inspired the rebels in 1776 to declare independence from Britain. His ideas reflected Enlightenment-era rhetoric of transnational human rights. He has been called "a corsetmaker by trade, a journalist by profession, and a propagandist by inclination". Bio from Wikipedia, the free encyclopedia.

THE AGE OF REASON BY THOMAS PAINE PDF

Thomas Paine's *The Age of Reason; Being an Investigation of True and Fabulous Theology*, published in three parts from 1794, was a bestseller in America, where it caused a short-lived deistic revival. Promoting a creator-God while advocating reason in the place of revelation, Paine's controversial pamphlet caused his native British audience, fearing the results of the French Revolution, to receive it with more hostility than their American counterparts. This passionate and engaging recording of Paine's classic is as certain to provoke modern readers to thought as it did with his original audience.

Brilliant Religious Discussion

By Rich

A brilliant work that reads almost like a modern piece of writing. The sheer scope of evidence offered as well as the arguments presented make this a must-read for anyone who seriously contemplates the role of religion and belief in our society. I would suggest this as a must read for everyone preparing for a life in the religious sector - whether minister or priest or rabbi or imam. These are not necessarily individual arguments that need to be addressed (though they are pretty staggering as such); but taken as a whole, a truly "person of faith" needs to explain (to himself, if no one else) how these items Paine presents fit into the beliefs held so strongly.

Shape my current philosophy

By Jim

Paine does a good job of dissecting Christianity and putting it in perspective. Coming from a catholic upbringing I found this to be an influential book in reforming my opinions to be opinions and not regurgitated church speak. I'd recommend reading Chirstopher Hitchen's "God is Not Great" afterwards for an even further atheistic book. Hitchens debates a few of Paine's points on the ability of any god to be benevolent.

On a non theological point, I generally love Thomas Paine's writings. An obscure pamphlet that I enjoy is "Agrarian Justice." It sort of pushes for what is the modern movement of basic income.

Thanks, I Needed That!

By Daniel R. Retzer

At 53, I'm finally willing to listen to this great book. Loved the first part, kinda skimmed the second part because it got little tedious in the details as he did a more than thorough job of exposing inconsistencies in the Bible. His message is very good for those of us challenging our inherited beliefs, yet think he could've toned down some of the inflammatory language and perhaps would've had more people at his funeral. As Mark Twain wrote-"I must studiously and faithfully unlearn a great many things I have somehow absorbed." This book is helpful if you, like me, have a lot to unlearn.
