Superb

By Kathleen Van Cleve

Erin and her students' work in compiling this first-rate text about qualitative research is thorough, informative and ... this is the crazy part... completely accessible to one and all. For anyone interested in or embarking on a research-based project, this book is indispensable.

Enjoyable but limited

By Amazon Customer

Useful book on setting out to fieldwork and interviewing, but very sketchy on how to organize and analyze results. A good introduction, but only skims the surface.
