Love & Romance - Your questions - the book answers

By Rebecca of Amazon

This book is about 2-inches thick and the size of your hand. If you noticed this book on a coffee table, you would instinctively reach out and pick up this book. It would seduce any bibliomaniac instantly.

The first time I saw one of Carol's books I was instantly intrigued. When I picked up the book I had no idea how to use it. Of course, I'm not known for reading instructions. However, once you realize you are playing a "foretelling the future" game, it becomes an enjoyable treat. I don't take this too seriously. It is more for amusement value.

First you ask a yes/no type question while holding the book and concentrating on your question for a few seconds.

Then you place one hand palm down on the book's front cover and open the book when you feel the time is right.

The page you see will contain your answer.

So, I ask the book: "Will I have a romantic evening tonight?" Answer: "Watch out for Clinging Vines."

Since I love towers and castles this was amusing. Could this mean a handsome knight will climb up into the tower?

Answer: "Use your imagination."

Again, I ask: "Does my lover love me truly and deeply." Answer: "You're in hot water; make bubbles."

Mmm, I got that twice even on the second try the same page appeared. The fact that I asked about "deeply" and the answer contained the word "water" was interesting. Will I soon own a jacuzzi tub?

Answer: "Allow room for surprises."

I love Carol's books because they really work for me. She produced the original Book of Answers in 1998 and the book was then published commercially later that same year. It went on to become a best-seller.

I was one of the last people at a book signing party in Issaquah where Carol was just starting to put away the books. I became intrigued by these little books and found an Autographed copy. I opened the book and saw a few words on each page.

Fortunately Carol Bolt was there to save me and explained how the book worked. She is perhaps one of the nicest authors I've met. She is just as fun to talk to as her book is to read. She is a multi-disciplinary artist who has a passion for quotes and also incorporates words into her two-dimensional and sculptural works.

As soon as I knew the secret of how to play with this new book toy for my brain, I was laughing and had to buy the first book. Each book Carol writes just is more fun than the last. They have the intrigue of a magic eight ball, except way more answers.

Other answers include:

"What are you waiting for?"

"Keep it to yourself."

"You're going to need a map."

"It will be harder than you think."

"Could be good under different circumstances."

"Set a date."

Just be very careful what you ask.

You might just get the right answer.

Mysterious little books that intrigue the mind...
