ULTIMAN: THE ULTIMATE COLLECTION (THE BIG BANG COMICS COLLECTION) BY GARY CARLSON, CHRIS ECKER PDF

Chris Kelly is The Ultimate Human Being - Ultiman! Chris was a 4F reject driving home from his draft board, when his car was hit by a glowing meteor, charging him up with atomic power. He became as strong as an ox, as fast as a racing car, had skin like steel and could jump the length of a football field. He donned a costume and became ULTIMAN. The volume in the BIG BANG COMICS COLLECTION gathers together all of the stories from Ultiman's long list of super-heroic adventures. A cornerstone of the Big Bang Comics Universe (along with Knight Watchman and Thunder Girl), Ultiman is a classic comic book character who's adventures are fun for the whole family to read! In addition to all of the Ultiman stories, this Pulp 2.0 edition features bonus materials such as never-before-seen artwork, the History of Ultiman, and rare material not seen in a decade. They're all here - Ultiman, Lori Lake, Ultragirl, Thunder Girl, and the Pantheon of Heroes - the entire Ultiman Family of characters from the Big Bang universe.

The Ultimate Big Bang Comic Trade Paperback

By Kindle Customer

I believe that this trade paperback is the best one of all of Big Bang Comics trades. It feels really full of tons of material and extras, and you can read it for a while. DEFINITELY get your money's worth with this one!

My favorites have to be any of the stories done by Jeff Weigel, the closet thing we have today to the legendary Curt Swan and Murphy Anderson. It's got some rare stuff that's out of print and a cool excerpt from the Big Bang Comics History.

To be honest, Ultiman was never my favorite of the Big Bang Universe (that honor goes to The Knight Watchman, Thunder Girl and The Sphinx - also available in trade paperbacks) but this book has definitely increased my love for the character. And Ultragirl is a star waiting to happen.

Seriously, for \$9.99 you get 160 pages of goodness. Compare that to a single modern issue which costs 4.99 on average and you get your money's worth here.

Nice job Pulp 2.0

The classic stories that never were, back again for the first time!

By GePop

When the Big Bang line of comics debuted in the 1990s, I picked them up for the same reason the creators made them...we all loved the comic books of the Golden, Silver and Bronze ages, particularly those from DC. The Big Bang stories were loving homages to bygone eras, and I enjoyed them greatly.

Now, picking up this trade collection of past Ultiman adventures, I realized something: I wasn't simply just a fan of the classic characters which inspired the Big Bang heroes...I am a sincere and dedicated fan of the Big Bang characters themselves. Ultiman is as "real" and as interesting to me as Superman himself is. These stories transcend homage, and as such are well worthy of checking out for their own merits.
