## Review

"This book is at the cutting edge of the whole health movement." (Publishers Weekly)

"Dr. Richard Gerber has provided a valuable step in thinking about the higher reaches of human beings beyond mechanics to the domain of mind and spirit, and shows how these issues will become crucial factors in the medicine of the future." (Larry Dossey, M.D., author of *Healing Words*)

"A landmark book, written with profound understanding, but in simple and readable language." (Health World)

"[This book] proves to be a worthy reference work and a help to practitioners and patients alike. For those who wish to take responsibility for their own health, it is a valuable information resource." (Jennifer Hoskens, *New Dawn*, Nov-Dec 2006)

"For the serious student of whole body healing, this book is an essential purchase. . . . an invaluable resource both for healers and those who need a solid reference book on healing modalities." (Pamela Crossland, *TCM Reviews*)

". . . a classic reference book for anyone seeking a comprehensive overview of the field of energy medicine. . . . manages to be quite the page-turner, by virtue of maintaining effervescent enthusiasm for the subject throughout. . . . strikes an easy balance between sharing ancient esoteric spiritual teachings, newer vibrational therapies, and scientific research. . . . Readers who are intrigued and open-minded to studying all these areas will find this book an absolute must-read. . . . I highly recommend **VIBRATIONAL MEDICINE** to anyone interested in a more complete understanding of the energies related to optimal health." (*RealityShifters News*, August 2004)

I love this book

By Amanda Erpelding

Not through the whole book yet, but it is really deep and very educational on how our bodies are suppose to work and why they don't. Its a very slow read for there is a lot of information to wrap my head around. This book explains a lot of holistic healing methods and why they work and were and are practiced, very in depth.

I love this book!

It arrived in great shape and good timing.

The template is perfect.

By Breck Stewart

I read Dr. Gerber's book in the late 1980's when the first edition was published. It was recommended to me by Jeff Levin, a world renowned healer and teacher, and my naturopath at that time.

What stuck with me was the concept of man's multi-dimensional nature. The book talks about man's perfect spiritual body. This body-template is projected or spatialized as a stepped down, modified, 3 dimensional holographic reproduction and (as a result of centuries of false education), wrongly conceptualized as a 'material' object. Much like a virus infecting computer software, false or malicious programs of disease are ignorantly, aggressively or deceptively introduced into consciousness and appear to obtain in this 'bodification'. They can be removed, through detection, reformatting and routine cleansing, and Vibrational Medicine offers a selection of techniques for accomplishing this.

The book was a major waypoint for me in my search for healing and answers. It provided me with a comprehensive introduction to alternative methods of healing. It identified their scientific and philosophical foundation. It enhanced my treatments by providing me with the information I needed to fully cooperate with my practitioner.
